CURRENT RESEARCH

Michał Kryczka's current research focuses on a framework for the extension of addressing spaces.

BRIEF RESUME

Michał Kryczka completed his M.Sc. in Computer Science in 2008 at the [Technical University of Łódź](#) (Łódź, Poland). His master thesis focused on Cisco IPS as a system to secure LAN against attacks from public network. As a part of his research for this thesis, he went to the [Turku University of Applied Sciences](#) in Finland for one year. His research there focused on IP Networks and Entrepreneurship.

For the last year of studies he received a scholarship from the Polish Ministry of Science and Higher Education for outstanding scientific achievement. He had also previously been awarded a scholarship for the years 2003 to 2008 from the Technical University of Łódź for the high grades that he achieved.

Among his publications, two of his research papers have been published in consecutive editions of the Networks and Information Systems conferences held in Łódź (Poland). His main area of interest is connected with network security. He is also a proficient user of C/C++ and JAVA and is knowledgeable in various OS, such as MacOS, Windows and Linux. His native language is Polish, although he also speaks English and Spanish.

PERSONAL INTERESTS

In his spare time, Michał Kryczka enjoys playing volleyball. He was a volunteer during the 2004 Olympic Games in Athens.
